

Gaining Pharmaceutical Packaging Expertise

A client team uses a senior advisor to support their recommendations

CHALLENGE

A team at a consulting firm working on a project in the pharmaceutical packaging space needed an industry expert to help them better understand Food and Drug Administration requirements, material science, and manufacturing within the space.

THE GLG APPROACH

The client was given a list of relevant experts within six hours of the project intake and selected a Network Member who was a Professor of Material Science at the California Institute of Technology to collaborate with the team as a senior advisor.

The senior advisor, selected for their deep technical expertise and relevant industry experience, supported the team for a total of 15 hours across a six-week project.

OUTCOME

The senior advisor used their industry background to help the client team properly evaluate the target company's data and materials and provided invaluable feedback for the team's final recommendations.

Learn more

A project team supplemented their pharmaceutical project work by engaging a senior advisor to bring technical expertise in material science to their final recommendations.

Why GLG?

Project Breadth

One senior advisor, 15 hours of work over six weeks.

Quality Expertise, Quickly

GLG sourced initial candidates within six hours of intake and onboarded the senior advisor the same day the client gave the green light.

Extension of Your Team

A senior advisor functions as an extension of a team to help win proposals, join meetings, review documents, provide feedback, and serve as a point of validation based on their expertise.

As the world's insight network, GLG connects clients to the subject-matter experts who can provide real-world insights to make informed decisions. Our team of professionals work with you to create a tailored approach that identifies, assesses, and answers your questions on your timeline. We bring the power of insight to every great professional decision.
